

Motorcycle Wash

**BRAND NEW
CONCEPT.**

Unique niche market.

**A FOAM WASH AND
WARM BLOW DRY.**

The perfect way to an
incredibly awkward job.

**FULLY SELF
CONTAINED.**

Minimal footprint and
simple to install.

ADDED REVENUE.

From a growing
customer base.

COMMITTED TO REDUCING OUR CARBON FOOTPRINT

With an unrivaled 30 years history in the manufacturing of garage forecourt equipment, from our headquarters in Bedford, we are continuing to reduce our carbon footprint, from energy efficiency through design to the reusing of packaging and recycling of equipment at the products end of life.

Imagine - trying to clean hard to reach sharp metal parts.

Imagine - attempting to leather off engine components.

Imagine - owning a bike.

Now we bring you the answer.
The Motorcycle Wash

- Easy to install.
- Proven revenue earner.
- Brings in more shop customers.

Standard Equipment Specification:

Compressed air high foaming traffic film remover - *tackles the toughest of grime, gets into the hardest to reach areas.*

Cash operation incorporating electronic 'mech & internal safe - *computer controlled chemical delivery keeps costs fixed.*

Accurate high pressure rinse - *allows users to concentrate on particular areas, sports, custom or off road.*

Incredibly powerful blower - *disperses water from awkward, difficult to reach areas leaving the 'bike dry, even the seat!*

Attractive mirror finish stainless steel cabinet with profiled corners - *enhances any site & encourages new custom.*

Rigid overhead booms - *keeps hoses off the floor reducing the risk of damage.*
